

GROWTH INFRASTRUCTURE CASE FILE

02 GROWTH LAB × ATS FUNDED

THE DISTRIBUTION CASE STUDY

THE HARD PART ISN'T GETTING ATTENTION. IT'S GETTING PEOPLE TO **TRUST** WHAT THEY'RE SEEING.

When a financial product launches, attention is easy to buy. Trust is harder to manufacture. Most of the customer journey happens after the impression — in the part no media plan measures.

— THE TRUST GAP

CONCEPTUAL MODEL — ILLUSTRATIVE, NOT CAMPAIGN-SPECIFIC DATA

Most campaigns optimize the first step.
The customer makes the decision much later.

THE JOB IS NOT TO CREATE MORE ATTENTION.
THE JOB IS TO MOVE ATTENTION CLOSER TO ACTION.

WE BUILD THE LAYER BETWEEN THE **PRODUCT** AND THE **CUSTOMER.**

Not media placements. Not a creator list. An operating layer that sits between a launch and the people it needs to reach.

THEN WE PUT THE SYSTEM TO WORK.

ATS Funded brought 02 Growth Lab into the launch — not as a media vendor, but as the exclusive partner running distribution.

ATS FUNDED WASN'T JUST BUYING A POST.

THEY WERE PUTTING 02 GROWTH LAB INSIDE THE LAUNCH DISTRIBUTION.

WE DIDN'T START WITH THE SALE. WE STARTED WITH THE **REASON TO BELIEVE.**

- 01 EDUCATE**
Explain the product before asking for anything.
- 02 CREATE TRUST**
Credible creators, useful content — not cold ads.
- 03 DEMONSTRATE**
Show the product, process and offer through native content.
- 04 DISTRIBUTE**
Put the content in front of relevant, warm audiences.
- 05 CAPTURE INTENT**
Give interested people one clear next action.
- 06 TRACK**
Connect every click to measurable referral performance.

ORIGINAL EVIDENCE — CAMPAIGN CONTINUATION

A satisfied client doesn't just renew.
They ask for a second campaign in a
new market.

EDUCATION BECAME DISTRIBUTION.

Creators were used to explain, demonstrate and distribute — not simply advertise.

ATTENTION STARTED THE FUNNEL. SALES FINISHED IT.

THE CONTENT WAS THE DISTRIBUTION. THE DISTRIBUTION PRODUCED SALES.

● TRACKED PERFORMANCE — FUNDEX REFERRAL DASHBOARD — REFERRAL CODE: PLEASURE

THE MODEL WAS BUILT TO MAKE DISTRIBUTION ACCOUNTABLE.

Figures shown separately rather than as a return-on-investment ratio — the referral dashboard reflects cumulative tracked activity on the code, and the retainer/performance periods have not been confirmed as directly comparable in the supplied evidence.

THE VALUE ISN'T "WE GOT YOU VIEWS."
THE VALUE IS WE CONNECTED DISTRIBUTION TO MEASURABLE COMMERCIAL ACTION.

THE LESSON

DISTRIBUTION IS ONLY VALUABLE WHEN IT MOVES THE CUSTOMER.

ATTENTION is not the finish line.

TRUST moves attention forward.

EDUCATION reduces uncertainty.

CREATORS distribute the message.

UGC makes the message native.

TRACKING makes the system accountable.

CONVERSION proves the system.

SALES make the work matter.

WE BUILD THE DISTRIBUTION LAYER
BETWEEN PRODUCTS AND CUSTOMERS.
